#### SURFACE BURNING CHARACTERISTICS:

**Zero Flame Spread**  
**Zero Fuel Contributed**  
**Zero Smoke Developed**

### *For Exterior and Interior use*

Creative Mines does not recommend using any acid based cleaners to wash masonry veneer since they may alter the color of the veneer and grout. Always select a small inconspicuous test area first if any other type of masonry veneer cleaner is used.

#### IMPORTANT INFORMATION

Creative Mines' Crafted and Natural Masonry Veneer is intended to vary in color. A more natural installation is achieved when a balance of colors and sizes are preselected from different pallets of masonry product.
